Introduction

Your astrological horoscope (natal chart) at birth is an important key to your personality and character, but your natal chart is not the last word about you. As time moves on after the moment of your birth, the Sun, Moon, and planets continue to circle through the heavens forming ever-changing kaleidoscopic patterns in relation to your own birth chart, bringing out or obscuring this or that part of you.

It can be useful to know how these ongoing planetary patterns relate to your life, and that is what this report is about. Here we calculate the primary astrological changes in your chart and interpret them so that you can see at a glance what is happening at any given time. Your events are arranged and interpreted chronologically, by well-known astrologer Michael Erlewine, and each event includes date and time, keywords, astrological indicator, and an astro-tarot card. We hope you enjoy your forecast.
